1 Identification of substance

Product details

Trade name: 44 CORE LF
Application of the substance / the preparation: Flux cored solder

Manufacturer/Supplier:
Northrop Grumman Kester
515 E. Touhy Ave.
Des Plaines, IL 60018

Information department:
MSDS Coordinator
Tel. (847) 699-5755

Emergency information:
CHEMTREC 24-Hour Emergency Telephone Number: (800)424-9300
CHEMTREC 24-Hour Emergency Telephone Number (Outside of the U.S. and Canada): (703)527-3887

2 Composition/Data on components

Chemical characterization
Description: Mixture of the substances listed below with nonhazardous additions.

Dangerous components:

<table>
<thead>
<tr>
<th>Component</th>
<th>Percentage</th>
</tr>
</thead>
<tbody>
<tr>
<td>7440-31-5 tin</td>
<td>0-100%</td>
</tr>
<tr>
<td>7440-50-8 copper</td>
<td>0-100%</td>
</tr>
<tr>
<td>7440-36-0 antimony</td>
<td>0-100%</td>
</tr>
<tr>
<td>7440-22-4 silver</td>
<td>0-100%</td>
</tr>
<tr>
<td>7440-66-6 Zinc</td>
<td>0-100%</td>
</tr>
<tr>
<td>7440-69-9 bismuth</td>
<td>0-100%</td>
</tr>
<tr>
<td>8050-09-7 Rosin</td>
<td>2.5-10%</td>
</tr>
</tbody>
</table>

Additional information:
Composition and weight percent of solder alloys varies widely and can be determined by product label.
Flux in core is typically 1-3% by weight.

3 Hazards identification

WHMIS Hazard Symbols

Information pertaining to particular dangers for man and environment:
The product has to be labelled due to the calculation procedure of international guidelines.
May cause sensitisation by skin contact.

(Contd. on page 2)
### Classification system:

**NFPA ratings (scale 0 - 4)**

- Health = 1
- Fire = 1
- Reactivity = 0

**HMIS-ratings (scale 0 - 4)**

- HEALTH 1
- FIRE 1
- REACTIVITY 0

### 4 First aid measures

**After inhalation:** Supply fresh air; consult doctor in case of complaints.

**After skin contact:** Immediately wash with water and soap and rinse thoroughly.

**After eye contact:** Rinse opened eye for several minutes under running water.

**After swallowing:** Induce vomiting, if person is conscious. Seek medical help.

### 5 Fire fighting measures

**Suitable extinguishing agents:**

CO2, extinguishing powder or water spray. Fight larger fires with water spray or alcohol resistant foam.

**For safety reasons unsuitable extinguishing agents:** Water

**Special hazards caused by the material, its products of combustion or resulting gases:**

In case of fire, the following can be released:

- Carbon monoxide (CO)
- Carbon dioxide (CO2)
- Aliphatic aldehydes

**Protective equipment:** Wear self-contained respiratory protective device.

**Additional information** Flux in cored solder may ignite when the solder melts in a fire.

### 6 Accidental release measures

**Person-related safety precautions:** Ensure adequate ventilation

**Measures for environmental protection:** Do not allow to enter sewers/surface or ground water.

**Measures for cleaning/collecting:**

Melted solder will solidify on cooling and can be scraped up. Use caution to avoid breathing fumes if a gas torch is used to cut up large pieces.

### 7 Handling and storage

**Handling:**

**Information for safe handling:** Ensure good ventilation/exhaustion at the workplace.

**Information about protection against explosions and fires:** No special measures required.
Storage:
Requirements to be met by storerooms and receptacles: No special requirements.
Information about storage in one common storage facility: Not required.
Further information about storage conditions:
Store in dry conditions.
Exposure to sulfur or to high humidity will tarnish solder surface.

8 Exposure controls and personal protection

Additional information about design of technical systems: No further data; see item 7.

Components with limit values that require monitoring at the workplace:

<table>

</tr>
</tbody>
</table>

Additional information:
PEL = Permissible Exposure Limit (OSHA)
REL = Recommended Exposure Limit (NIOSH)
TLV = Threshold Limit Value (ACGIH)
OSHA = Occupational Safety and Health Administration
ACGIH = American Conference of Governmental Industrial Hygienists
NIOSH = National Institute for Occupational Safety and Health

Personal protective equipment:
General protective and hygienic measures:
Immediately remove all soiled and contaminated clothing.
Wash hands before breaks and at the end of work.

Breathing equipment:
When ventilation is not sufficient to remove fumes from the breathing zone, a safety approved respirator or self-contained breathing apparatus should be worn.

Protection of hands:

Protective gloves

Material of gloves:
Nitrile rubber, NBR
Natural rubber, NR

(Contd. on page 4)
Penetration time of glove material:
The exact break trough time has to be found out by the manufacturer of the protective gloves and has to be observed.

Eye protection:
- Tightly sealed goggles
- Safety glasses

9 Physical and chemical properties

General Information
- **Form:** Solid
- **Color:** Silver grey
- **Odor:** Mild

Change in condition
- **Melting point/Melting range:** > 100°C (> 212°F)
- **Boiling point/Boiling range:** Undetermined.
- **Flash point:** Not applicable.
- **Danger of explosion:** Product does not present an explosion hazard.
- **Density at 20°C (68°F):** > 7 g/cm³

Solubility in / Miscibility with
- **Water:** Not miscible or difficult to mix.

10 Stability and reactivity

Thermal decomposition / conditions to be avoided: No decomposition if used according to specifications.
- **Materials to be avoided:** Strong acids, strong oxidizers.
- **Dangerous reactions:** No dangerous reactions known.
- **Dangerous products of decomposition:** When heated to soldering temperatures, the solvents are evaporated and rosin may be thermally degraded to liberate aliphatic aldehydes and acids.

11 Toxicological information

Acute toxicity:
- **Primary irritant effect:**
  - **on the skin:** Possible local irritation by contact with flux or fumes.
  - **on the eye:** Smoke during soldering can cause eye irritation.
  - **through inhalation:** Flux fumes during soldering may cause irritation and damage of mucous membranes and respiratory system.
  - **through ingestion:** May cause gastrointestinal irritation.
Sensitization: Sensitization possible through skin contact.

Additional toxicological information: The product shows the following dangers according to internally approved calculation methods for preparations:
Irritant

12 Ecological information

General notes:
Do not allow product to reach ground water, water course or sewage system, even in small quantities. Danger to drinking water if even extremely small quantities leak into the ground.

13 Disposal considerations

Product:
Recommendation:
Must not be disposed of together with household garbage. Do not allow product to reach sewage system.

Uncleaned packagings:
Recommendation: Disposal must be made according to official regulations.

14 Transport information

DOT regulations:
Hazard class: -
Not regulated.

Land transport ADR/RID (cross-border):
ADR/RID class: -
Not regulated.

Maritime transport IMDG:
IMDG Class: -
Not regulated.

Marine pollutant: No

Air transport ICAO-TI and IATA-DGR:
ICAO/IATA Class: -
Not regulated.

15 Regulations

USA The following information relates to product regulation specific to the USA.

SARA (Superfund Amendments and Reauthorization Act)
Section 355 (extremely hazardous substances):
None of the ingredient is listed.
Trade name: 44 CORE LF

<table>

### TSCA (Toxic Substances Control Act):
All ingredients are listed.

### California Proposition 65
Chemicals known to cause cancer:
WARNING: This product may contain a chemical in trace amounts known to the State of California to cause cancer.

| 7439-92-1 lead                               |
| 7440-43-9 cadmium                            |
| 7440-02-0 nickel                             |

Chemicals known to cause reproductive toxicity:
WARNING: This product may contain a chemical in trace amounts known to the State of California to cause birth defects or other reproductive harm.

| 7439-92-1 lead                               |
| 7440-43-9 cadmium                            |

</tbody>
</table>

| IARC (International Agency for Research on Cancer) |
None of the ingredients is listed.

| NTP (National Toxicology Program)            |
None of the ingredients is listed.

| TLV (Threshold Limit Value established by ACGIH) |
None of the ingredients is listed.

| NIOSH-Ca (National Institute for Occupational Safety and Health) |
None of the ingredients is listed.

| OSHA-Ca (Occupational Safety & Health Administration) |
None of the ingredients is listed.

### CANADA: The following information relates to product regulation specific to Canada.

**Workplace Hazardous Materials Identification (WHMIS):**
This product has been classified in accordance with the hazard criteria of the Canadian Controlled Products Regulation (CPR) and the MSDS contains all of the information required by the CPR.

**WHMIS Classification:**
D2A
D2B
Components on Ingredient List for WHMIS:
Rosin
tin
antimony
copper
silver

EUROPEAN UNION
The following information relates to product regulation specific to the directives of the European Union.

Risk phrases:
May cause sensitisation by skin contact.

Safety phrases:
Keep out of the reach of children.
Avoid contact with skin.
Wear suitable gloves.
If swallowed, seek medical advice immediately and show this container or label.
Dispose of this material and its container to hazardous or special waste collection point.

16 Other information
The information contained herein is based on data considered accurate and is offered solely for information, consideration and investigation. Northrop Grumman Kester extends no warranties, makes no representations and assumes no responsibility as to the accuracy, completeness or suitability of this data for any purchaser's use. The data on this Material Safety Data Sheet relates only to this product and does not relate to use with any other material or in any process. All chemical products should be used only by, or under the direction of, technically qualified personnel who are aware of the hazards involved and the necessity for reasonable care in handling. Hazard communication regulations require that employees must be trained on how to use a Material Safety Data Sheet as a source for hazard information.
